WHAT ELSE DO YOU THINK WE SHOULD DO TO SERVE YOU BETTER?

- No comment.
- She should share her experience with other teachers since not all the teachers are as organized as she is.
- I personally like everything and can't think of anything right now.
- This class should be limited seating to a small students capacity in order to have a better learning atmosphere.

- Chemistry department needs repairs. Outdated & unclear labs. Disrespectful instructors. Math department needs teachers with better English pronunciation, and people who are excited about math. Teachers seem to be simply performing a menial job, and not teaching students for future development.
- GCC should provide more classes because many students are not getting chances to add classes because of limited seats. For example, there is one Biology 101 class for whole college.
- More variety !!!
- Better parking !!
- Less class activities for the reason that not all group members are as enthusiastic as others might be. Should grade on individual performance rather than group performance. A more lenient “tardy” policy (we’re not in HS, we should know better.) More classes.
- GCC should offer more parking slots for students who are enrolled. It’s not fair that students who purchase a parking permit must still arrive hours before to find a parking spot. Students should not be allowed to purchase parking permits once the maximum capacity for all structures have been sold. It will prevent traffic from occurring.
- The class is too big. It should be small #.
- I think this is one of the most efficient colleges in USA.
- Serve cookies.
- Field trips!
- Ask her to drop the lowest grade. It gives students hope to do better in future.
- Group work in all classes will be a lot more helpful.
- More parking lots.
- She does serve us perfectly with all class sources and lecture materials. She is a great instructor.
- I think everything is fine so far.
- Ambiguous.
- Too big of a room! It should cut down to 40 students not 70.
- More field trips.
- Maybe have a SI/Student study session for tests!
- Everything is good.
- More healthier food on campus.
- Everything is good.
- To offer more classes and to have smaller class sizes.
